INDEX TO VOLUME VIII

Abbreviations: abstr., abstract; book rev., book review; c.c., current comment; ed., editorial

Acid-base metabolism of a normal child on diets that increase in fat (abstr.) 184
Amino acid deficiencies of beef, wheat, corn, oats, and soy beans for growth in the white rat (abstr.) 76
Anemia, development in young rats, factors influencing (abstr.) 350
  Nutritional, in infancy: its treatment with liver extract and iron, J. Greengard, 33
  nutritional, value of some vegetables in (abstr.) 189
  oysters and (abstr.) 442
  pernicious, importance of the treatment of, on a quantitative basis (abstr.) 445
  pernicious, injection of liver extract in treatment (abstr.) 352
  pernicious, treatment of (abstr.) 542
  pernicious, treatment with digested liver (abstr.) 285
  pernicious, treatment with horse liver extract (abstr.) 187
  of young infants, value of liver extract and iron (abstr.) 76
Atwater, R., Standards for canned foods, 170
Avitaminosis (abstr.) 286

Barborka, C. J., Ketogenic diet and its use, 471
Beef (abstr.) 384, 351
  effect of fat on shrinkage and speed in roasting (abstr.) 286
Berman, L., Food and character (book rev.) 440
Bernards, C., (*see* Hadwen)
Biltz, R. J., (*see* Smith)
Blackfan, K. D., Growth and development of the child. Part III. Nutrition (book rev.) 182
Blood lipids, diet and (abstr.) 76, —
Blum, S., Practical dietetics in health and disease (book rev.) 349
Book Reviews:
  Body mechanics: education and practice, 69
  Chemistry of food and nutrition, 278
  Diabetes, its treatment by insulin and diet, 539
  Diabetic's own cook book, 182
  Eat, drink and be merry in Maryland, 349
  Economics of food consumption, 278
  Essentials of dietetics in health and disease, 70
  Food and character, 440
  Food and your body: talks with children, 279
  Food in health and disease, 537
  Food preparation studies, 279
  Food supply and pellagra incidence in 73 South Carolina farm families, 441.
  Foods in health and disease, 70
  Furnishings and equipment for residence halls, 538
  Growth and development of the child. Part III. Nutrition, 182
  Handy book of recipes for twenty-five, 71
  Health protection for the pre-school child, 69
  Health through projects, 279
  Hospitals and child health, 440
  Iron content of vegetables and fruits, 182
  Key to the White House Conference, 280
  Manual of microbiology, 440
  Midday meals for preschool children in day nurseries and nursery schools, 183
  Milk production and control, 349
  National cook book, 538
  Nutrition service in the field, child health centers: a survey, 182
  Nutritive value of foods, 280
  100,000,000 guinea pigs: Dangers in everyday foods, drugs, and cosmetics, 537
  Practical dietetics in health and disease, 349
  Principles of chemistry, 349
  Psychology and psychiatry in pediatrics, 69
  School dormitory, 278
  Some biting remarks about you and food you eat, 182
Bran, the influence of, on the alimentary tract, M. S. Rose, G. MacLeod, E. McC. Vahlteich, E. H. Funnell and C. L. Newton, 133
  wheat, laxative effects (abstr.) 188
Brock, G. D., Health through projects (book rev.) 279

Bryan, M. deG. (and Handy), Furnishings and equipment for residence halls (book rev.) 538
Budget reducing, dried fruits and (abstr.) 74
Buying the institution's canned goods (abstr.) 78
supplies, food standards and (abstr.) 447

Cafeteria plan plus checking waste food (abstr.) 351
Calcium therapy in pediatrics (abstr.) 443
Canned foods, buying (abstr.) 447
foods, hints for the buyer (abstr.) 351
fruits and vegetables, grades and labels (abstr.) 446
Carbohydrate, Observations on the metabolism of D. S. Waller, 119
Chatfield, C., (*see* Sweeny)
Cheese in its many forms (abstr.) 283
Chemistry of food and nutrition, The trend of recent advances in the, H. C. Sherman, 373
Child, A. M., (*et al.*) Food preparation studies (book rev.) 279
Child, The, as a hospital problem, L. Streater, 238
Children, value of increased supply of vitamin B and iron in diet (abstr.) 72
Raw apple diet in treatment of diarrhea (abstr.) 540
Chuinard, F. G. (*see* Manville)
Cobalt in animal nutrition (abstr.) 543
Cocktail, The word, a misnomer (ed.) 179
Convention, The connoisseur at the (ed.) 430
The fifteenth annual (ed.) 269
registration, analysis (c.c.) 436
Salient features of the New York (ed.) 429
Cook, To, or not to cook (ed.) 175
Cookery, American (abstr.) 75
Cooking, fast, versus shrinkage (abstr.) 282
Recent developments in the science of, E. G. Halliday and I. Noble, 1
Cost of food and meals (abstr.) 351
Costs of medical care, committee on (c.c.) 435
Cranberries, nutritive value (abstr.) 541
Crothers, B., Psychology and psychiatry in pediatrics (book rev.) 69

Dasheen (abstr.) 74
Dental caries, calcium and phosphorus of saliva in relation to (abstr.) 447
Diabetes, lower fat diet in (abstr.) 187
Diabetic coma, blood sugar in (abstr.) 284
diet, insulin in (abstr.) 75
Diehm, M. M. (*see* Obold)
Diet, and its effect upon blood formation, F. S. Robscheit-Robbins, 387
kitchen, special (abstr.) 190
of Mexicans living in Texas, A study of the, J. C. Winters, 47
The mosaic that is (ed.) 64
Diets, racial (c.c.) 434
special, cost of (abstr.) 74
Dietary department, how to maintain (abstr.) 447
Modernizing the, C. Matthes and H. Seago, 245
Dietetics, The changing problems of, R. Fitz, 250
Dietitian, The hospital training of the student (ed.) 432
the ideal (abstr.) 77
Dietitians, hospital courses for (c.c.) 272
The training of (ed.) 347
Dressing without eggs, emulsion oil (c.c.) 271
Du Bois, E. F., A tribute to Graham Lusk, 396

Eichelberger, M., The hot school lunch, 339
Emergency, Feeding the family in an, L. H. Gillett, 382
Energy intake of well-nourished girls 10 to 16 years of age, Studies in the food requirement of adolescent girls: I. The, B. Wait and L. J. Roberts, 209
intake of the individual, Studies in the food requirement of adolescent girls: II. Daily variations in, B. Wait and L. J. Roberts, 323
requirement, method for measuring the total (c.c.) 65
Enochs, M. (and Yoder), A comparative labor study of full-time and part-time employees, 56
Epileptic children, study of water and mineral balance (abstr.) 281
European institute of dietetics, A, H. J. Rynbergen, 424

Fatty acids essential in nutrition (abstr.) 285
vital need of the body for certain unsaturated (abstr.) 188

Feeding federal prisoners, Some problems in, P. E. Howe,517
FIELD, A. M. (and Gold and Lundgren), Muffins and cakes without wheat, 262
Fish, copper, iron and manganese content (abstr.) 543
FITZ, R., The changing problems of dietetics, 250
Food atopy, so-called, On being poisoned by harmless foods, J. Forman, 316
clinic that serves both the hospital and the community (abstr.) 354
clinics (ed.) 532
intake of hospital patients, A comparison of the as purchased and prepared food methods for determining the, F. H. Smith and B. J. Biltz, 107
poisoning due to toxic substances formed by strains of the cloacaerogenes group (abstr.) 281
when ten million dollars for, is considered well-spent (abstr.) 77
Foods, A. M. A. Committee on (abstr.) 283
Standards for canned, R. Atwater, 170
tricky labels on (abstr.) 159
FORMAN, J., On being poisoned by harmless foods, so-called food atopy, 316
Frozen foods (c.c.) 270
numbers of bacteria in (abstr.) 73
public health aspects (abstr.) 185
Frozen vegetables, health aspect (abstr.) 184
Fruits, dried, nutritional values (abstr.) 287
FUNNELL, E. H. (*see* Rose)

Gastric acidity, effect of physical activity on (abstr.) 442
Geraghty, E. M. (*see* Pope)
GILLETT, L. H., Feeding the family in an emergency, 382
Gillett, L. H., Nutrition service in the field, child health centers: a survey (book rev.) 182
Glycogen, relation of, to water storage in the liver (abstr.) 188
liver, storage in diabetic animals (abstr.) 541
GOLD, B. (*see* Field)
Goldsmith, H., Some biting remarks about you and the food you eat (book rev.) 182
GOODENOW, H. A., The comparative cost of the preparation of vegetables by machine and by hand in institutions, 332
Graves, L. G., Foods in health and disease (book rev.) 70
GREENGARD, J., Nutritional anemia in infancy, its treatment with liver extract and iron, 33

Hadwen, S., (and C. Bernards) Handy book of recipes for twenty-five (book rev.) 71
HALLIDAY, E. G. (and Noble), Recent developments in the science of cooking, 1
Hams of different sizes, a study of relative economy (c.c.) 180
Handy, E. H. (*see* Bryan)
HARRINGTON, M. M., Methods of determining effectiveness of clinical teaching, 164
Hawley, E., Economics of food consumption (book rev.) 278
HAYWARD, E. (and Waller), Quality studies of therapeutic diets: III. The reduction diet, 256
Hemoglobin regeneration, factors in food influencing (abstr.) 446
Hibben, S., National cook book (book rev.) 538
Howe, P. E., Some problems in feeding federal prisoners, 517
Human milk studies, vitamin G control of mixed milk (abstr.) 73
Hyperthyroidism showing carbohydrate metabolism disturbances (abstr.) 352

Infant feeding, lemon juice evaporated milk in (abstr.) 73
value of properly modified powdered milk in (abstr.) 186
effect of cod liver-skimmed milk on bones in (abstr.) 540
Iron and copper in liver and liver extracts (abstr.) 543
determination in cow's milk and human milk (abstr.) 446
loss in cooking broccoli (abstr.) 352
metabolism, action of copper (abstr.) 446
relative value in hemoglobin formation (abstr.) 75
Irradiated milk, amount of vitamin D and its rate of formation (abstr.) 76
influence of intensity and character of radiations on antirachitic potency (abstr.) 446

Kallett, A., (and Schlink) 100,000,000 guinea pigs (book rev.) 537
Ketogenic diet, The, and its use, C. J. Barborka, 471
in the treatment of urinary infections of childhood (abstr.) 444
Ketosis during fasting (abstr.) 543
Kitchen, benefits from remodeling (abstr.) 75
Hotel Lincoln's experimental (abstr.) 351

Labor study of full-time and part-time employees, A comparative, M. Enochs and D. Yoder, 56
Lamb, spring and yearling (abstr.) 351
LEVIN, T. P., Calcium and phosphorus metabolism of normal pre-school children. I. On diets containing plain and irradiated cereals, 482
Low cost dietary data (c.c.) 438
Lunch, The hot school, M. Eichelberger, 339
LUNDGREN, H. (*see* Field)
Lusk, Graham (ed.) 268
Lusk, A tribute to Graham, E. F. Du Bois, 396
Lyford, C. A., The school dormitory (book rev.) 278
Lyons, S. H., a diabetic's own cook book (book rev.) 182

MacLeod, G. (*see* Rose)
Magic, Belief in, M. S. Rose, 489
MANVILLE, I. A., (and Chuinard), Vitamin studies on pears. I. A determination of the amount of vitamins A and C in the Winter Nelis and the D'Anjou after prolonged storage, 504
Market changes (abstr.) 73
Marketing, economical (abstr.) 283
MATTHES, C. (and Seago), Modernizing the dietary department, 245
Meat cookery, shrinkage as a profit factor (abstr.) 185
costs, A study of (ed.) 348
Menus of olden times (abstr.) 75
lighter food for summer (abstr.) 185
spices that enrich (abstr.) 444
Metabolism, Calcium and phosphorus, of normal pre-school children. I. On diets containing plain and irradiated cereals, T. P. Levin, 482
Metric system, applications to large quantity food administration (c.c.) 67
Milestone, Another (ed.) 61
Milk, activated, in anti-rickets campaign (abstr.) 541
antirachitic value of, from cows fed irradiated yeast (abstr.) 281
nutritive value of mineralized (abstr.) 442
Vitamin D content as affected by feeding irradiated ergosterol to cows (abstr.) 353
Milk diet, addition of raw beef or beef scrap to a wheat (abstr.) 287
Milk-iron-copper diet, effect of prolonged feeding (abstr.) 543
Milks, advantages of cultured lactic acid (abstr.) 350
New concepts regarding the concentrated (ed.) 268
MITCHELL, H. S. (*see* Vaughn)

Nephritic diet, Quality studies of therapeutic diets: II. The, Sister M. Victor, 157
News notes, 79, 191, 288, 356, 448, 545
NEWTON, C. L. (*see* Rose)
NOBLE, I. (*see* Halliday)
NORTHROP, M. W. (and Osterud), A graphic personnel schedule, 423
Nurses, Teaching nutrition and cookery to (c.c.) 534
Nutrition, emergency (abstr.) 78
experiment in (abstr.) 354
for superior growth (abstr.) 443
project in northern Newfoundland, a continuation of the, M. Vaughn and H. S. Mitchell, 526
recent progress in (abstr.) 287, 353
Nutritional studies, The urgency of (ed.) 176

Obesity diets, Significance of studies of ketosis and of nitrogen and water balance to J. I., Rowntree, 307
Obold, W. L., (and Diehm) Manual of microbiology (book rev.) 440
Osgood, R. B., Body mechanics: education and practice (book rev.) 69
